

## Northwood University Game Console and DVR Device Registration

1. Plug your Game Console or DVR Device into the network and start it up with an online game or attempt to connect to the Internet. This will allow the network registration system to see your system's registration attempts.
2. Depending on where you attend, you will need to visit one of the following registration websites. **\*\*Please note you will need to access the website from a computer connected to the Northwood University network.**
  - Florida Students – <http://flregister.northwood.edu>
  - Michigan Students – <http://miregister.northwood.edu>
  - Texas Students – <http://txregister.northwood.edu>
3. In the Username field enter your Northwood username.
4. In the Password field enter your Northwood password.
5. In the MAC Address field enter the MAC Address of the device you are registering.  
**\*\*Your MAC Address must be entered in the following format AA:BB:CC:11:22:33**  
For instructions on obtaining your MAC address, visit your registration website from above.
6. In the Device Type drop down box select the device type you are registering. If you don't see the device type you are registering, please contact the Help Desk at (877) 209-4357, or [helpdesk@northwood.edu](mailto:helpdesk@northwood.edu).
7. Click the Register button. Your device will be able to connect to the Northwood network 10 minutes after successfully registering.
