Drug & Alcohol Policy

The Drug-Free Workplace Act was enacted into Federal law in 1988. The university recognizes its obligation to support the law and is aware of the damaging impact illegal drugs can have on our culture and especially its young people.

The Drug-Free Workplace Act of 1988, Subtitle D, Section 5152 and the Drug-Free Schools and Communities Act amendments of 1989, PL no. 101-226 requires that Northwood University maintain an environment free from the unlawful manufacture, distribution, dispensation, possession or use of controlled substances, or alcohol.

The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited while on college property, attending Northwood events, or performing work-related duties.

Pursuant to applicable procedures, policies, or appropriate collective bargaining agreements, governing employee or student discipline, involvement in the unauthorized use or sale, manufacturing, dispensing or possession of controlled substances or alcohol on Northwood University premises or during Northwood University activities, or working under the influence of such substances, will be subject to disciplinary actions up to and including dismissal or expulsion.

Any employee or student who is convicted of violating any criminal drug/alcohol statute when such violations occurs at the University or as part of any college activities, must notify the university no later than five (5) days after such conviction. Failure to provide such a notice may subject the employee/student to dismissal/expulsion. He/she shall notify his/her immediate supervisor, who will report the incident to the Human Resources Department. Students in the Adult Degree Program will notify the Associate Dean of the Adult Degree Program. All other students will notify the Dean of Students on their campus. Northwood University supports programs aimed at the prevention of substance abuse by University employees and students. The University will provide preventative educational programs for students and refer employee/students experiencing substance-dependency-related problems for counseling and assistance.

**Drug and Alcohol Prevention Counseling**

Northwood encourages faculty staff and students with alcohol or other drug dependency problems to contact community counseling centers for assistance. Confidential substance abuse counseling may be arranged by contacting the Human Resources Department, the Vice President of Finance, the Campus President or our Employee Assistance Program (EAR).
Below is a list of some drug and alcohol prevention, counseling treatment and rehabilitation programs. Additional programs may be listed in local and other area telephone directories. Look under the heading of Drug Abuse & Addiction Information or Alcohol Information and Treatment.

**Health Risks of Substance/Alcohol Abuse**

Drug use can start out as experimentation or casual use and can progress into problem use or addiction. Long-term research has proven that the abuse of alcohol and other drugs can erode the foundation of the University's goals and
objectives and diminishes the personal attainment of intellectual, social, physical and moral growth and
development.

The following provide some specific risks incurred with the use of particular common drugs or substances.

- **Alcohol (Beer, wine, liquor, distilled spirits)**
  Brain damage, addiction, liver damage, neuralgic damage
- **Caffeine**
  May aggravate health problems
- **Hallucinogens (LSD, Mescaline, PCP, Magic Mushrooms, Peyote)**
  Panic reactions, psychotic behavior, may intensify existing psychosis, violent acts
- **Inhalants (Solvents, glue, whiteout, solvent impurities)**
  Impaired perceptions, judgments, and coordination; toxicity
- **Marijuana (Pot, grass, hash, Thai sticks)**
  Bronchitis, brain damage, lethargy, conjunctivitis, possible birth defects
- **Nicotine (Cigarettes, snuff, chewing/pipe tobacco, cigars)**
  Loss of appetite, lung cancer, addiction
- **Opiates (Narcotics) (Heroine, Morphine, Codeine, Paregoric)**
  Addiction, impaired, perception, judgment, and coordination; brain damage, depression, withdrawal
- **Barbiturates (sedative) (Phenobarbital, pentobarbital, secobarbital amobarbital)**
  Severe withdrawal symptoms, depression, convulsions, addiction
- **Anabolic Steroid (Steroids)**
  Acne, cancer, liver disease, heart disease, fetal damage, shrunken testicles, baldness, aggressive combative behavior
- **Stimulants (Speed, diet pills, uppers, cocaine, ice, crack)**
  Loss of appetite, delusions, heart damage, hallucinogens, withdrawal, convulsions, nasal deterioration

**Who is at Risk?**

The key to preventing and treating drug/alcohol abuse is to treat the underlying reasons for use. Factors putting people at higher risk for drug/alcohol use are:

- Family history of alcoholism or drug abuse
- Favorable attitudes toward use
- Friends who use drugs
- Low self-esteem & self-worth
- Academic or work related failures
- Weak intra & interpersonal skills
- Inadequate bonding
- Incest, sexual abuse victim
- Inadequate coping skills
- Stress
- Depression

Education and training is important in learning to help ourselves and others. Components of this education include:

- Early Detection: Understanding signs and symptoms of drug/alcohol abuse
- Intervention: Approaching someone you think has a problem
- Referral: Knowing where to get help or sending someone for help
Self Assessment

What are your attitudes and behaviors regarding the use of alcohol and drugs? Analyzing your attitudes in conjunction with knowing the facts about drugs is important to responsible decision making concerning your well-being. Answer the following questions to assess yourself. All questions include reference to the use of legal and illegal drugs.

1. Are you unable to stop drinking/dosing after a certain number of drinks/doses?
2. Do you need a drink/drug to get motivated?
3. Do you forget what happened while you were partying? (Blackouts)
4. Do you drink or take drugs alone?
5. Have others annoyed you by questioning you about your drinking/drug use?
6. Have you been involved in physical violence while you were drunk/high?
7. Have you destroyed or damaged property while drinking or using drugs?
8. Do you drive while drunk or high?
9. Have you been physically hurt while under the influence of alcohol/drugs?
10. Have you been in trouble with University officials or campus security because of alcohol/drug use?
11. Have you chosen friends based upon their favorable attitudes toward drinking and drugs?
12. Do you think you are normal despite friend’s comments that you drink or use drugs too much?
13. Have you ever missed work/classes because you were too hung over to get up on time?
14. Have you ever done poorly on an exam/assigned work because of drinking/drug use?
15. Do you think about drinking or getting high often?
16. Do your social activities involve drinking or the use of drugs in order for you to enjoy yourself?
17. Do you feel drinking/drug use is affecting your ability to maintain healthy, intimate relationships with a significant other?
18. Do you feel that drinking/drug use is affecting your physical health on an on-going basis including insomnia, intestinal disturbances, mental processing, etc.?
19. Do you believe you need to drink/use drugs (other than prescribed) to function at work, home or in social situations?

If you answered "yes" to three or more of these questions, or you are concerned about your use, you may be using alcohol/drugs in a way in which the quality of your life is diminished and the effects are harmful. Do not blame yourself. Ask for help. Use the resources listed above.

Employee Drug & Alcohol Policy

Substance Abuse & Drug-Free Workplace Scope

In 1988, the Drug-Free Workplace Act was enacted into federal law. The University recognizes its obligation to support the law and is aware of the damaging impact legal/illegal drugs can have on our culture and especially its young people.

The Drug-Free Workplace Act of 1988, Subtitle D, Section 5152 and the Drug Free Schools and Communities Act Amendments of 1989, PL No. 101-226, requires that Northwood University maintain an environment free from the unlawful manufacturing, distribution, dispensing, possession or use of controlled substances, and or alcohol.

It is the responsibility of Northwood University employees and students to familiarize themselves with the policies, regulations and procedures. Students should refer to the Student Handbook or the Dean of Students Office and employees can refer to applicable collective bargaining agreements, or the Human Resources Department/Representative for additional information. A summary of legal sanctions for the violation of controlled substances/alcohol laws and policies can be obtained from the Student Services Office or the Human Resources Department/Representative.
POLICY

A. The manufacturing and unlawful distribution, dispensing, possession or use of a controlled substance and/or alcohol is prohibited while on University property, attending Northwood University events, or performing work-related duties.

B. Pursuant to applicable procedures, policies, or appropriate collective bargaining agreements, governing employee or student discipline, involvement in the unauthorized use, sale, manufacturing, dispensing or possession of controlled substances and/or alcohol on Northwood University premises or during Northwood University activities, or working under the influence of such substances, will be subject to disciplinary action up to and including termination of employment or expulsion.

C. Any employee or student who is convicted of violating any criminal drug/alcohol statute, must notify the University no later than five (5) days after such conviction. Failure to provide such notice may subject the employee/student to termination of employment/expulsion. The employee shall notify his/her immediate manager, who will report the incident to the Human Resources Department. The student will notify the Dean of Students.

D. Northwood University supports programs aimed at the prevention of substance abuse by University employees and students.

E. Legal Sanctions for Violations of Controlled Substances/Alcohol Laws & Policies – In addition to federal, state and local laws which prohibit and control legal sanctions for violations of controlled substances and alcohol, Northwood University will impose its own sanctions for any violations occurring at the University or at University-related events.

F. Drug and Alcohol Prevention Counseling

Northwood University encourages faculty, staff and students with alcohol or other drug dependency problems to contact community counseling centers for assistance.

Laws & Policies

Federal, State and local laws prohibit the possession, use, manufacturing, distribution and sales of controlled substances. Sanctions for violations of these laws can range from fine and penalties to imprisonment. There are also laws against the abuse of alcohol. Drinking and driving is the most frequent violation and can result in probation, imprisonment, and loss of driving privileges. Contribution to another’s abuse of alcohol can also lead to legal sanctions.

Legal Sanctions

There are legal sanctions under local ordinances, and under state and federal law for the unlawful possession, use, or distribution of illicit drugs and alcohol. A violation under state law may result in a misdemeanor or felony conviction depending on the nature of the offense, punishable by imprisonment, payment of fines, confiscation of real and personal property or a combination of the three.

It is the responsibility of Northwood employees and students to familiarize themselves with the policies, regulations and procedures. Students should refer to the Student Handbook or the Dean of Students Office and employees can refer to applicable collective bargaining agreements, the Employee Handbook, Policies & Procedures Manual or the Human Resources Office for additional information. A summary of legal sanctions for the violation of controlled substances/alcohol laws and policies can be obtained from the Student Services Office or Human Resources Representative.
